Dear Mr. Huddle:

The closure plans submitted by you, dated April 19, 1984, and received by this Agency on April 20, 1984, to close the hazardous waste storage area are hereby approved. The approval of these plans is further subject to the following modifications and conditions:

1. All samples shall be collected and analyzed in accordance with E.P.A. approved methods. The number of samples taken shall be adequate to characterize the area tested.
2. The Agency's regional office in Collinsville, Illinois shall be notified of the date samples are taken.

When closure is complete the owner or operator must submit to the Director certification both by the owner or operator and by an independent registered professional engineer that the facility has been closed in accordance with the specifications in the approved closure plan. These certifications must be received at this Agency within 30 days after closure.

All certifications, logs, or reports which are required to be submitted to the Agency by the facility should be mailed to the following address:

Illinois Environmental Protection Agency
Division of Land Pollution Control
